Edgar Smith was in Claremore Saturday on business.

Mrs. Aiken lost a horse Sunday from blind staggers.

Tom Baggett is back at work once more after a relapse.

J. N. Walker has heard of a horse, stolen from him recently.

Benson Crockett is again running the Excelsior laundry wagon.

Chas. Wasmund is in Kansas City and will probably be away all week.

A. L. Gex has bought a span of what he calls very fine driving horses.

L. P. Smart is up from Sallisaw looking after his interests in this section.

F. W. Taylor, of Adair, was in the city yesterday, looking after some business.

Mrs. C. Hunt is expecting a visit from Mr. and Mrs. Crawford, of Sapulpa.

Miss Forrest Killbrow is cashier at W. R. Baggett's beginning her duties Monday.

W. J. Hudson, brother-in-law of John Byrd, came down from Neosho Sunday.

Steve Bluejacket presented his daughter a fine piano as a present yesterday.

John Weir, from west cabin creek, has moved to town to get ready for the school.

Mrs. Ellen Humphrey, of Clarence, Mo., is visiting her daughter, Mrs. C. J. Hunolt.

Mrs. McNally was buried at 2:30 Tuesday afternoon. She died of heart failure.

Ladies who take pride in beautiful clear white clothes, should use Red Cross Ball Blue.

L. C. Levine the Chelsea merchant, passed through Saturday night on his way to Kansas City.

If you would have your clothes that delicate, clear white, so desirable, use Red Cross Ball Blue.

O. W. Mescham has purchased the printing plant of the Fairland and will move it to this city.

The dwelling east of D. W. C. Duncan is in the north part of town, is receiving a new coat of paint.

W. H. Mayes, Jim Elliott and Ose Bengue came up from the Rock creek and Grand river country Tuesday.

Bob Taylor is considering the advisability of shipping a car of horses to St. Louis, being long on that kind.

Mrs. H. T. Elliott, living some miles down Cabin creek, has recovered from a severe attack of typhoid fever.

Tomorrow at 11:50 a. m., a special train of thirty cars of McFarlan vehicles will be on exhibition at the Katy depot.

The Harris building is fast nearing completion. The brick work is done and the carpenters have taken possession.

The whooping cough is about to assume the form of an epidemic in this town, though it is generally in mild form.

The revival services at the Presbyterian church will continue nightly through the week, every one is invited to attend.

The work of papering and painting the Jumbo store has been completed and a decided change for the better is perceptible.

A. L. Churchill went to Windsor Saturday evening. Mrs. Churchill has been there several days with her mother who is ill.

Vinita's prospecting, well goes on apace toward the center of gravity. The success or failure of this venture means much for Vinita.

Judge Gill's introduction to Vinita was certainly a muddy one. Along next August, it is safe to assure him, things will be different.

Prickly Ash bitters cures the kidneys, regulates the liver and purifies the bowels. A valuable system tonic. Sold by Chapman & Briggs.

Deputy Paden Tolbert went to Muskogee Saturday night, taking with him July Bell, who was given a \$0 days jail sentence for stealing coal.

Mrs. C. T. Chesney arrived Monday from Texas for a visit with her relatives, Mr. Milford's family. Mr. Chesney is expected in a short time.

It is reported that a case of smallpox has developed in the Muskogee jail. If this is true the well, no doubt, be a postponement of the criminal court.

The board of health has secured the services of Dr. R. O. Owen of this city to take charge of the smallpox cases in the Jeff Dick neighborhood east of the river.

The meetings at the Methodist Episcopal church continue nightly and the attendance is good. Rev. Myers, an evangelist, preached a splendid sermon last night.

One of the Rodgers boys took another bunch of the Henry Sears "slash" cattle through town Wednesday, branding them at the stock yards for Jarboe & Jones, of Welch.

A letter received from Taylor Crutchfield states that he is well satisfied with his job and that the Chickasaw mountains are about the roughest country he has yet seen.

W. P. Farley, William Brown and John W. Martin and wife, went to Rock creek Thursday, to attend the sale of the S. W. Dale estate. Everything brought good prices.

The seven year old daughter of Charles Hartman, the jeweler at Foreman's, died Saturday night of something like membranous croup. The funeral took place from the residence, conducted by Rev. W. T. King.

The grip lost by George Cook about a month ago and advertised for in these columns was found by a man named Nail, above Jones creek, and returned to Mr. Cook's brother in this city. The contents of the grip had not been disturbed.

A system regulator is a medicine that strengthens and stimulates the liver, kidneys, stomach and bowels. Prickly Ash bitters is a superior system regulator. It drives out all unhealthy conditions, promotes activity of body and brain, restores good appetite, sound sleep and cheerful spirits. Sold by Chapman & Briggs.

Tablet Seminary Appointments. The Cherokee Board of Education made the appointments for teachers in the two Seminaries and the Colored High school last Saturday. They are as follows:

Male Seminary.—Prof. Logan, Walter Mitchell, E. C. Alberty, W. P. Thorne.

Female Seminary.—Miss Florence Wilson, Miss S. Alexander, Mrs. H. W. C. Shelton, Miss Patsy Mayes, Miss M. L. Morgan, Miss Bessie Cunningham.

Colored High School.—Fannie Lowery.

He Took to the Brush. Willis Warren, a negro who escaped from the smallpox quarantine at Oswego, came to Vinita Sunday, and being rather proud of having outwitted the Kansas officers, boasted openly of it. Marshal Ledbetter got wind of the aspect and set out to investigate, but Warren learned of it and took to the brush. It is not known whether he had been exposed to the disease, but his presence in Vinita was certainly unsolicited and the sudden departure will not cause any hard feeling among our people.

From Dick Oskison. John Oskison received a letter from his son Dick, who is in the Roosevelt hospital in New York. The young man has been there ever since the return of the army from Cuba and has undergone two surgical operations, and the doctors do not give him much encouragement, and it may be necessary to amputate the entire leg yet. He gives a glowing account of the kind treatment he has received from friends in New York during the eighteen months he has been under treatment at the hospital.

Miller's Transient Shop. Now that the vacant lot beside Gunter's livery barn is to be occupied with a new building the four-wheeled shoe shop of Stephen Miller's has again been moved, this time into the street opposite Ratcliff's. He has moved on and off the railroad right-of-way at divers and sundry times. The morning the Harris building burned Uncle Stephen came down smiling and swinging his dinner pail as usual, but found his schooner moved far down the street out of the way of the fire.

Mayor Sheehan's Monopoly. The mayor seems to have had a corner in matrimonial matters during the past few months. At one time the ministers of Vinita performed an occasional marriage ceremony, but of late Mr. Sheehan has monopolized that particular industry to the material detriment of the ministry. With the advent of the new clerk things have changed and Mr. Chandler will take a hand.

Working Night and Day. The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar coated globe of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25 cents per box. Sold by A. W. Foreman and People's drug store.

Surveying the Right-of-Way. Engineer Taylor and a corps of surveyors have been at work on the Frisco right-of-way lately. The 200 feet south of the track is being cut up into lots 40x160 feet facing Illinois avenue. This work is supposed to be for convenience in handling leases, but is thought by some to be preparatory to substantial improvements by the company.

Good Water Prospects. The prospects are excellent for an abundant supply of water at the artesian well being drilled in this city. Monday the water stood within six feet of the surface and the well was then about 425 feet deep. The supply seems to be inexhaustible, but the company working on down in the hope of striking a flow that will rise above the surface.

Better Sidewalks Needed. A good deal of complaint is being heard about the condition of the sidewalk and street south of the Post office on Wilson street. The sidewalk of that locality has long been an eyesore to the town and it certainly ought to be repaired or rebuilt without further delay.

A Successful Feeder. Freeman Nidiffer returned from his farm on Horse Creek Monday. He is feeding 160 head of steers and has had them on full feed three months today, and expects to feed them three months longer, and is also feeding 160 hogs with them. He is an advocate of long time feeding.

Street Crossings Asked For. A petition to the city council was circulated Monday by Dr. Wimer, asking that a street crossing be put in from the corner of Canadian avenue and Wilson street, across Wilson street, also one across Canadian avenue from the corner of Wilson street, in the vicinity of the court house.

Not Proof Against Disease. W. C. Wright and a number of other sportsmen were preparing for a camp hunt east of Grand river, expecting to start Friday morning, but on account of the smallpox in that vicinity will forego the trip.

PROCLAMATION.

In accordance with and agreeable to the recommendation of the board of health of the Incorporated Town of Vinita: Be it hereby proclaimed that such points as are known to be infected by smallpox are now and will be held in quarantine by the Incorporated Town of Vinita, so far as to prohibit the people of said points from coming to Vinita until said board of health shall deem it expedient to raise quarantine. J. R. SHEEHAN, Mayor.

Brave Men Fall. Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at A. W. Foreman's and People's drug stores.

Banks Elect Officers. The annual election of officers at the two banks in this city took place Tuesday as follows: First National, Oliver Bagby, president; J. O. Hall, vice president; W. P. Phillips, cashier. Directors—Oliver Bagby, B. F. Fortner, E. B. Fryer, E. N. Ratcliff, A. L. Churchill, W. H. Kornegay, W. A. Graham, J. O. Hall, W. E. Halsell, G. W. Clark, G. W. Beck. The Vinita National—Wm. Little, president; L. W. Bullington, vice president, Davis Hill, cashier. Directors—J. W. Sanders, S. S. Cobb, W. M. Mellette, A. M. Clinkscale, Freeman Nidiffer, G. W. Hill, F. M. Smith.

A Cure For Smallpox. The worst case of smallpox can be cured in three days, simply by the use of cream of tartar. One ounce of cream of tartar dissolved in a pint of hot water and drank at intervals when cold, is a certain, never failing remedy. It has cured thousands. Never leaves a mark, never causes blindness and avoids tedious lingering. It will check and stamp out the disease quicker than anything else and saves the great expense that sickness brings. Use a glass or stone or china vessel, never use a tin or iron to keep it in as both destroy the tartaric flavor.

A Bug in the Ear. Dr. Piquard Tuesday removed a bug from the ear of the 12 year old daughter of Mr. and Mrs. James Armour, of West Cabin. The child has been suffering intense pain in the ear for some two weeks past, and Tuesday the parents succeeded in removing the insect from her ear. Pus had formed on the interior of the organ and her hearing is injured, but it is believed will be fully restored when the soreness disappears.

'Twas Easy For the Expert. Mr. Wing, the expert safe opener, came down from Springfield yesterday morning to open A. J. Green's safe. Mr. Green met him at the depot and on seeing the small grip carried by the expert, felt not a little disgusted. "You haven't got enough tools in that grip to open my safe," this, however, proved incorrect, as the gentleman accomplished his task within ten minutes, using only one tool, and that for diverting the attention of the spectators.

Heavy in Every Part. The deep-well boring house is not the cleanest place imaginable, but is a very interesting one to visit. The first thing to impress a visitor is the strength required of each piece of the apparatus. The drills are very heavy and the wrenches for handling them, as well as the cable and drum are correspondingly massive.

A Pleasant Trip. S. S. Cobb and family returned from Louisville, Texas, yesterday where they have been visiting the past week. While there they attended the golden wedding anniversary of Mrs. Cobb's sister, Artie, the daughter of Mr. Cobb, did not return and will probably remain and attend school at that place.

Smallpox Near Afton. Dr. I. D. Hitchcock telegraphed the information over from Afton yesterday morning that two well developed cases of smallpox had been discovered three and one half miles northeast of Afton. Dr. Hitchcock wired the information to Dr. Fite, of Muskogee, and asked for instructions.

Marriage Licenses. Clerk Chandler issued marriage license to three couples, Owen C. Bullard and Rena D. Kemper, of Hinton, Mo., E. G. Abbey and Martha Elizabeth Hambra, of Vinita, and C. W. McMain and Lola Stuart, of Alluwe.

Died. Jennie, the little three year old daughter of Mr. and Mrs. C. P. Howard, died Tuesday of typhoid fever. Funeral will take place from residence today at 10 o'clock, by Rev. M. L. Rutler.

Exercising Care. One favorable sign of the restriction of the spread of smallpox in the country is that the people are alert and not disposed to admit visitors until satisfied they are not from infected sections.

Smallpox at Pryor Creek. Constable Billy Simms went to Pryor Creek Monday morning with a summons for George Mayes but was prevented from serving it on account of Mr. Mayes having the smallpox.

Three Marriage Licenses. Marriage licenses have been issued to Robt. Wells and Cora Highland, of Catala; W. P. Parish and Pearl Starr, of Alluwe, and Frank P. Hagerty and Cora Bluejacket, of Bluejacket.

The Gill pie has all been distributed and yet some people are not satisfied—want to talk back as it were, and mouth about "home rule."

HOW TO BE HAPPY.

The New Birth—Practical Christian Living.

Prov. 5:22 "His own iniquities shall take the wicked himself, and he shall be holden with the cords of his sin." Many persons have tried to break those cords and to get free, sometimes by signing pledges, and sometimes by making good resolutions. Did they succeed? No, failure every time, and there will be failure till you take Jesus Christ who stands ready to come to your aid just so soon as you will permit Him. He can break these cords and make you free. He only is able to quicken us to life. Friends, we cannot control ourselves, and the practicable, the only sensible thing for us to do, is to submit to Him who is able and willing to do it for us. We venture to say that today it is the judgment of every man who, especially at this season of the year, makes resolutions to reform, that he ought to do this. There are very few indeed when spoken to but say "I intend to begin the service of Jesus Christ at some time." The mistake they make is in not deciding to begin now. Why delay? "The heart is deceitful above all things, and desperately wicked," and "the way of the wicked seduceth him." It is true, the way many are living is seducing them, and if they continue it, where will it end? For "in due time, their feet shall slide." They appear to stand now for a season, but the time is coming when, if they go on in the evil way, their feet will slide beyond recovery. These are God's truths, and the deceptions of the devil.

There are various reasons given for not beginning the christian life. "I fear I cannot hold out." God promises to hold you with his right hand. When a man commits himself to Jesus Christ, and trusts in Him, who is mightier than sin or habit or Satan, what has he to fear? Christ is almighty. He will give victory over every sin. "Having begun a good work in you, He will perform it, until the day of Jesus Christ."

Men think they will have to give up a great deal and that there will be a great many trials in the new christian life of faith and trust. Provision is made for every emergency. "Lo, I am with you alway." "I will never leave you nor forsake you." True Christians sometimes talk of christian life as having many trials in it, but there are not nearly so many trials as there are in the service of Satan. Christians who talk of self-denial in their lives make a mistake. Is it self-denial to give up a bad thing for a good one? To give up a guilty conscience, and to take a conscience which is purged from sin? To give away a sinful heart and sinful life, and have a life sealed with Christ is God? Why not be practical in regard to this matter? We are sensible in relation to any business enterprise (water and water works, electric lights, etc.) but foolish in relation to our duty to God. Instead of trusting in resolutions made in your own strength, bring your sinful hearts and your love of sin right to the loving savior, and he will implant within you a new nature—give you that new birth from above without which no man can enter into the kingdom of God. A man said "O that God would give me peace of conscience. I would give all my money if I only had peace of soul," and there has come or will come such a time in the history of each one, when they will long for that peace of conscience Jesus offers it to you today. No matter what hold Satan may have had upon you, enter heartily into the service of Christ and live a new life. To all who will do so we can say Happy New Year, for no one can be truly happy apart from Jesus Christ. VIOL.

MORE PRECAUTION.

Cherokee Board of Health Takes Charge.

Vinita is quarantined against the infected districts of Grand river, and the Cherokee board of health will soon have those cases of smallpox east of town under the immediate supervision of a competent physician.

There was a quorum of the national board in Vinita Sunday, and it was decided that all cases of smallpox in the Grand river neighborhood should be gathered together and put in charge of a physician, employed for that purpose; all suspects to be placed in quarantine to await developments.

At a meeting of the town board of health held at the office of Drs. Fortner & Bagby Tuesday it was decided advisable to quarantine against Grand river, and the following resolution was passed:

"Whereas, smallpox is prevailing epidemically in various parts of the country, and is now within 15 miles east of this place; Vinita has no smallpox, but this being

the principal trading point for that neighborhood, as a precautionary measure the board of health deem it necessary that Vinita quarantine against the infected country, and that the people of Vinita and vicinity be immediately vaccinated and take such other precaution as will speedily and effectually stamp it out."

The necessity of quarantine against Grand river was made apparent Monday by the presence in Vinita of John B. Edwards, of Lynch's prairie, east of Grand river. While the report lacks confirmation, it is generally believed that there are one or two cases of the disease in the Edwards family, and the action of the board in shutting out such visitors is very timely.

The school board held a meeting Monday afternoon and passed a resolution requiring all school children to present a physician's certificate of vaccination on or before January 15. Printed blanks for this purpose were distributed among the children at the public school.

SMALLPOX SITUATION.

Court May be Held—Matter Under Advisement.

The board of health consulted with Judge Gill yesterday relative to the advisability of postponing the term of court at this place set for next Monday. The judge is of the opinion that court will have to be called Monday, even if it should be immediately adjourned. If the developments between now and Monday are such as to warrant such action, the term will be adjourned, and if, on the other hand, there seems to be no danger the court will go on. This may be the safest plan, but if there are as many cases of smallpox in the surrounding country as is reported, it is certainly taking a great risk to wait till Monday and compel people to come in, in obedience to summons, from all parts of the country and incur the risk of bringing the disease to town. Perhaps 1,000 persons will attend court here the first day unless notified not to come. The loss to the business interests will be heavy if court is adjourned, but it might be made vastly more so to attempt to hold court and bring upon the town an epidemic of smallpox.

A DELIGHTFUL RECEPTION.

Mrs. R. I. Blakeney Entertains in Honor of Her Guest.

One of the most delightful entertainments of the season was given Tuesday afternoon by Mrs. R. I. Blakeney in honor of her guest, Mrs. Hardy, of Springfield. Upon entering each guest was given on a card with the name of an animal and a number written thereon and were requested to keep secret the name on their card. After all had been supplied No. 1 was invited to the black board and told to draw the animal named on her card, which she did or rather "tried" to, the remainder of the company guessing and writing down what they thought she had drawn, and so on until all had drawn. To say some of the drawings were pure works of art does not express it; especially when a dog was mistaken for a kangaroo and a flea for a turtle, a turkey for an eagle, etc. Five ladies guessed the same number; being a draw they finally awarded the first prize, a beautiful hand painted plate, to Mrs. W. P. Thompson. The booby prize, a tin whistle, was given to Mrs. West for guessing the least number of animals. Elegant refreshments were served by Misses Fayant and Goodykointz, in their usual charming manner, soon after which the guests made their adieu, each vowing they had never spent a more enjoyable afternoon. Those present besides the guest of honor were Mesdames C. O. Berry, J. B. Burckhalter, J. C. Anderson, L. F. Parker, C. Bailey Bell, J. B. Turner, J. A. Crockett, W. P. Thompson, R. M. Swain, W. E. Halsell, F. M. Chilson, W. S. Stanfield, W. F. Browning, J. T. Clapper, O. W. Mescham, F. S. E. Amos, B. F. Coley, Oliver Bagby, W. W. Miller, E. West, John Miller, Geo. Blakeney and Misses Fayant and Goodykointz.

QUARANTINE WAS THREATENED.

There are Other Smiths Than the Smallpox Patient.

The other day when the word got abroad down below Big Cabin that "a man named Smith has smallpox," Andy Smith's neighbors at once began to talk of severing relations with him. About that time, however, another person came along and explained that it was a man named Smith on Lynch's prairie, a dozen miles away, and quarantine on Andy was raised. It is sometimes worth while to find out which Smith.

About the most good reading you can get for the money is The Weekly Chieftain and Orange Judd Farmer and Almanac, all for \$1.25 a year.

SMALLPOX YEARS AGO.

Experience of Sam Stilley's Family with the Malady.

Seventeen years ago this winter smallpox raged over in the Grand river country and there were a good many deaths, particularly among the colored people. At the hospital the death rate was even one out of three. Among the families that had it was that of Sam Stilley, who lived on one of the Bangarner places. Mr. Stilley's brother, "Car," who was in town Tuesday, felt ill one day and went over to Sam's. A day or two later he broke out good and strong; and from the middle of November to away along into plovering time the following spring the family were wrestling with smallpox. Eight persons belonging to the family had the disease and all recovered. Mrs. Stilley and her daughter, now Mrs. Louis Thompson, escaped. With this experience it is not to be wondered at that the lady is somewhat particular in her inquiries when parties from the east side of Cabin and beyond stop at the house—Mr. Baggett's, at the military crossing of which Lem Paris writes in his war stories. The lady stated to the writer this week that it took little doctoring but a great deal of nursing. Something is given to cause the patient to break out well, after the first fever, and a laxative is given. Care is taken that nothing greasy is eaten, and that is practically, the extent of the treatment.

PNEUMONIA'S VICTIM.

Mrs. Marion Maddox Dies at Her Home in This City Sunday Night.

Mrs. H. W. B. Maddox, wife of Marion C. Maddox, died at her home in this city Sunday night of pneumonia. Mrs. Maddox was the only child of Col. L. B. Bell, was born in Texas Sept. 5 1862. The funeral services were conducted at the home of L. W. Bullington by Rev. M. L. Butler and was attended by a large number of relatives and friends.

"Little Hoolie" was the last child of Col. Bell. Eight little brothers had preceded her to the other shore. Her father's only solace and future hope, he had given her every educational advantage at home and at Worcester Academy, in this city. She had traveled much and spent a portion of two winters in Washington, D. C., with her father. During her girlhood she had only to wish, to receive, but withal she was modest, kind, considerate and without presumption and in full sympathy with playmates and neighbors.

When she assumed the duties of wifehood she took hold of them earnestly and honestly, was a tireless worker and devoted her time, thought and energies to her family and home, and in her last illness was hopeful to the last and considerate of her watchers and friends.

A member of no church, nevertheless a Christian at heart.

THE GRAND RIVER SMALLPOX.

No New Cases, and but one Death so far—That of Jeff Dick.

The smallpox situation on Grand river is unchanged, save there has been one death, Jeff Dick, who died Saturday, and old man Smith was reported to be in a precarious condition. There are no new cases reported, but a number of people have been exposed and will doubtless have it. The weather has been about as favorable for the spread of the disease as could be.
